Swiss International Medical Center

WORK WITH CHILDREN LIVING WITH AUTISM IN CHINA FOR A YEAR, A GREAT OPPORTUNITY!

About SIMC
SIMC is headquartered in Geneva and the company's mission is to build a bilateral professional network, demonstrate a commitment to working within a cross-cultural environment and collaborate in the delivery of innovative concept and services to patients and healthcare providers.

About CEC
The Center for Exceptional Children (CEC) is a pioneer center for diagnosis, education and care of autist children located in Mazu Health City. This ambitious project initiated by Chinese investors active in Health industry and lead by SIMC represents a hugh innovative solution for families living with an autist child.

To ensure the quality of the Coordinated Care model, the center has established a training assessment and certification program. The program is designed for the Chinese autism special education industry, set up and facilitated by Swiss practitioners under international standards, for professionals working in the field of autism.

The partnership between The Center for Exceptional Children (CEC) in China and the Swiss company SIMC-Swiss International Medical Center SA offers the opportunity to 5 professionals to make their contribution during the creation of a multidimensional pilot Center (comprehensive care) for children and adolescents living with autism in Putian, China.
